STUDENTS' ASSOCIATION

The Students' Association is the official link between the students of this University and its authorities. All students of this University are members of the Students' Association, and any person who has attended for at least one year at any University in New Zealand or elsewhere for the purpose of taking lectures or pursuing a course of study prescribed by that University and has so attended not later than two years prior to the commencement of the financial year during which application is made for membership of the Association may become a member by paying the Students' Association fee.

The objects of the Students' Association are to deal with all matters in which the students as a body are interested; to promote sports and social activities amongst its members; to control official publications; to conduct Inter-University Tournaments and the annual Capping Celebrations; and to conduct all other student activities designed to promote student interest and welfare.

Student activities are controlled by the Students' Association Executive, an annually elected body of fourteen members of the Association. The various cultural, sporting, social and intellectual interests of the student body are catered for by Clubs and Societies affiliated to the Students' Association.

Full information as to any matters affecting the Students' Association may be obtained on application to the Association Office.

1. Subject to the power of the Council under statutory authority to decline to enrol a student in special cases any person who has attained the age of twenty years and nine months may be granted provisional admission if in the opinion of the Professorial Board the qualifications of the applicant are such that he can enter upon his proposed course with reasonable prospects of success.

2. The applicant shall state the course upon which he desires to enter and shall supply particulars of his previous education and any other evidence which he wishes to be considered in support of his application.

A person who has been granted provisional admission by any university in New Zealand and who wishes to transfer to the Victoria University of Wellington shall submit a new application for provisional admission. The applicant's examination results since he was granted provisional admission will be taken into consideration in determining the result of his application.

(b) A person who is granted provisional admission and who had previously been granted provisional admission at another university in New Zealand shall be given such credits as the Professorial Board considers appropriate for any units or subjects which he passed at that university; and any such credits shall count as units or subjects for the purposes of regulation 5.

TRANSFER OF STUDENTS

A student transferring from some other university in New Zealand to the Victoria University of Wellington must make a fresh application for matriculation at this University: see Matriculation Regulations.

The Victoria University of Wellington Act 1961 provides that in such a case the Council shall give the candi-

date such credits as it considers appropriate for any units or subjects which he has already passed in New Zealand and with which he has been credited towards a degree or other academic qualification in his former university or shall grant him such exemptions as it considers appropriate, so that he may complete his course without suffering undue hardship as a consequence of his transfer.

As to transfer of terms see Terms Regulations, reg. 5.

A student who has completed the major part of a degree course at the Victoria University of Wellington and then moved to another district may in some cases complete the Victoria University degree course by taking the remaining units at another University in New Zealand. Full details may be obtained on application to the Registrar.

For the purpose of this regulation, a 'year of academic study' shall be any year in which the student was on the roll of students on 1 June or in which he entered for a degree or diploma examination.

3. A student who, having entered for examination in a particular unit in three sessions, has not passed that unit shall not be enrolled thereafter as a student for that unit nor sit examinations except with the permission of the Council.

TERMS AND EXAMINATIONS

TERMS REGULATIONS

KEEPING TERMS

1. In any subject in which terms are required to be kept an internal student shall keep terms by complying with the University regulations regarding enrolment and payment of fees, attending the classes in that subject to the satisfaction of the Professorial Board, and performing to the satisfaction of the Professorial Board such written, oral, practical and other work therein as the Professorial Board may require.

2. (a) Subject to the provisions of regulation 3 an extramural student shall keep terms in a subject by complying with the University statutes and regulations regarding enrolment and payment of fees, obtaining exemption from attendance at classes in that subject, and complying with any statutes and regulations in respect of oral or practical work.

(b) To keep terms in Economics I or II an extramural student shall in addition attend two departmental examinations at the University in the second and third terms, at dates to be notified in departmental course outlines issued to extramural students, and shall attain a satisfactory standard in these examinations.

3. An extramural student receiving tuition through Massey University shall keep terms by complying with the statutes and regulations of that University regarding enrolment and payment of fees, and by performing to the satisfaction of its Professorial Board such written, oral, practical and other work as the Professorial Board of that University may require.

PERIOD FOR WHICH TERMS ARE VALID

4. (a) Terms kept by an extramural student of the

Victoria University of Wellington shall be only for the year in which they are kept.

(b) Terms kept by a student in a year in which he fails, Grade E, in the final examination, or in which he sits part of the final examination but does not sit all the papers, shall be for the year of granting only.

(c) Except as provided in Clause (b) hereof terms kept by an internal student may be either for the year of granting and the following year or for the year of granting only as may be specified at the time of granting.

(d) Notwithstanding anything in this regulation the Professorial Board may at any time direct in special cases that terms shall be extended for such period as the Board in its discretion thinks fit.

(e) A student wishing to present a Reading Knowledge of Two Languages other than English must keep terms by complying with the requirements in regard to both languages, but need not do so in the one year. Where both languages are not taken in one year these regulations shall apply as if each language were a separate unit.

NOTE: A pass before 1963 in Reading Knowledge of a foreign language may be counted as one of the two Reading Knowledge courses required as a full unit for the B.A. degree.

(f) Notwithstanding anything in this regulation, terms kept by a student who is subsequently excluded from enrolment under the regulations for the exclusion of unsatisfactory students shall be for the year of granting only.

TRANSFER OF TERMS

5. Terms kept at any other university shall not be valid for a course at the Victoria University of Wellington unless the Professorial Board, after considering the scope of the two courses and other relevant circumstances, so determines. In permitting terms to be transferred under this regulation the Professorial Board may impose such

conditions as it thinks fit regarding supplementary work to be undertaken by the candidate.

NOTE: Terms kept in any subject at the Victoria University of Wellington are not valid for a course at any other university or college unless the statutes or regulations of that university or college so provide.

EXAMINATION REGULATIONS

2. (a) Every candidate for any examination shall give notice in writing, on the form provided, of his intention to present himself for examination.

(b) The notice shall be sent so as to reach the Registrar by the closing date specified in the University Calendar, and shall be accompanied by the prescribed fee, provided, however, that the notice and fee may be received within twenty-one days after the specified date if accompanied by the prescribed late fee, and provided further that subject to the approval of the Vice-Chancellor the notice and fee may be received more than twenty-one days after the specified date if accompanied by the prescribed late fee and fine.

RESTRICTIONS ON ENTRIES; CROSS-CREDITS AND EXEMPTIONS

3. (a) No candidate shall enter in the same year for more than two distinct courses for degrees and diplomas. Except as so provided, no candidate shall present two stages of a subject at the same examination unless the Vice-Chancellor on the recommendation of the Professorial Board so permits.

(c) No candidate shall be allowed to present himself for an examination in a subject for which he has received credit for another degree or diploma.

(d) Except where otherwise provided in any course regulations a candidate who has been credited with passes in units or subjects common to two or more courses may transfer not more than three units or subjects passed in one course to any one other course and shall pay the prescribed fee for each unit or subject so transferred. A unit or subject may not be transferred under this regulation unless it was passed at the standard required in the course to which it is to be transferred. A unit or subject in which terms were not kept may not be transferred to a course in which terms are required. No candidate shall be allowed to obtain credit for the same unit or subject in more than two courses. No Stage III unit or subject shall be transferred from one course to another unless one other Stage III unit has been credited to the former course and not transferred to any other course. No subject of a course for a Bachelor's degree with Honours or for a

Master's degree shall be transferred from one course to another. Wherever a candidate is unable to transfer a unit or subject compulsory in his second course he may present another unit or subject approved by the Professorial Board in place of it.

(e) A candidate who is exempted from passing in a unit or subject of a course by reason of having passed or been credited with a pass in that unit or subject or its equivalent in another course shall pay the prescribed fee.

within four weeks from the date of the posting of the official result of his examination and on paying the prescribed fee any candidate for a degree, diploma or certificate of proficiency may have his scripts reconsidered by the examiners. No information from the candidate shall be placed before the examiners.

HARDSHIP FROM CHANGE OF REGULATIONS

10. In any case where it is shown to the satisfaction of the Vice-Chancellor that any alteration or amendment of a University statute or regulation involving a change in a course of study or in examination requirements has caused hardship to a student, the Vice-Chancellor may make such provision as he thinks fit for the relief of such hardship. The student may appeal from the decision of the Vice-Chancellor to the Council, which may make such provision as it thinks fit.

AEGROTAT PASS

11. A candidate who has been prevented by illness or injury from presenting himself at any examination, or who considers that his performance in any examination has been seriously impaired by illness or injury may, on application, and with the approval of the Vice-Chancellor of the University or the Vice-Chancellor of the Massey University as the case may be, be granted an *aegrotat* pass, subject to the following conditions:

(iv) that the Head of the Department certifies that in his opinion taking into account the work of the candidate during his course of instruction, all work completed by him in the examination, and his disability at or before the time of the examination he is clearly worthy of a pass or, as the case may be, a pass with First Class, Second Class (first division), Second Class (second division), or Third Class Honours;

(v) that First or Second Class Honours be not awarded to a candidate who is granted an *aegrotat* pass in respect of more than half his papers.

(vi) that if the candidate was an extramural student he sat at least one final examination paper in the subject in which he is applying for an *aegrotat* pass.

12. Where by reason of personal bereavement near the date of examination or other critical personal circumstances involving the health of a close relative a candidate has been prevented from presenting himself at any examination or considers that his performance in any examination has been seriously impaired he may, on making appli-

cation and with the approval of the Vice-Chancellor, be granted a pass under this regulation, subject to compliance with the conditions in clause (i), (iv), (v) and (vi) of regulation 11, and subject to the condition that the bereavement or other circumstances be reported at the earliest possible opportunity.

13. Where a case has been referred back to an examiner pursuant to the decision of a meeting of examiners the examiner shall have power to award a compensation pass. Such a pass shall not be accepted as satisfying any prerequisite under course regulations.

If the candidate is not eligible under regulation 1 (a), (b) or (c) his application shall also be accompanied by the evidence required under regulation 1 (d).

3. The Professorial Board shall determine whether the application for registration and the proposed course shall be approved, and if so, shall determine the date of registration (which shall not be earlier than the commencement of the course by the candidate) and shall appoint a supervisor or supervisors, who shall be University teachers, one at least being a full-time university teacher.

4. A candidate shall pursue a course of full-time advanced study and research at the University, for a period of at least two years from the date of his registration, under the immediate supervision of the supervisor or supervisors, save that a period or periods of field work or extramural study may be approved under such conditions as the Professorial Board determines. This regulation shall come into force on the 1st day of January 1967.

NOTE: A course of full time advanced study and research means that

a candidate shall throughout the calendar year regard his Ph.D. work as his full time occupation provided that

(i) with the approval of his supervisor(s) and the Head of the Department a candidate may engage in other work relevant to his academic interests for an average of not more than six hours per week during any calendar year, and

(ii) a candidate may take such statutory, recreational and other holidays as are regarded as normal to a full time occupation.

6. The supervisor shall submit to the Professorial Board annual reports on the progress of the candidate. If progress is reported to be unsatisfactory Council may, on the recommendation of the Professorial Board, and subject to any submission or appeal a candidate may make on his own behalf, terminate the registration of the candidate.

7. Notwithstanding regulation 4, a full-time member of the academic staff of the University (not being the Head of a Department) may be registered as a candidate for the degree and shall pursue a course of advanced study and research at the University, for a period which shall, except in special circumstances to be determined by the Professorial Board, be of at least four years from the date of his registration, under the immediate supervision of the supervisor or supervisors.

10. The thesis shall be presented within five years from the date of registration. This period may, however, at any time be extended by the Professorial Board.

11. The thesis shall be examined by three examiners, one of whom shall be the candidate's supervisor, or one of the supervisors, being a full-time university teacher (and hereinafter called the 'internal examiner'). The other two examiners (hereinafter called 'external examiners') shall normally be persons not on the staff of the Victoria University of Wellington.

12. A copy of the thesis shall be submitted to each examiner. Except where the Vice-Chancellor, acting on the advice of the examiners, otherwise authorises, the internal examiner and at least one external examiner shall examine the candidate orally on the subject of the thesis and on the general field to which the subject belongs. Any supervisor who is assisting the internal examiner may also participate in the oral examination. Save in exceptional circumstances the oral examination shall not be conducted until the internal examiner has received a report on the thesis from any external examiner who will not be present at the oral examination. At the request of the internal examiner and one external examiner the candidate may be required to present himself for a written examination. The three examiners shall, after consultation, make a report to the Registrar on the whole examination. If a thesis is approved for the award of the degree one copy shall be returned to the candidate and two copies deposited in the University Library. This regulation shall come into force on the 1st day of January 1967.

13. If the examiners consider that the thesis is not entirely suitable for acceptance for the degree they may recommend that it be returned to the candidate and that he be permitted to re-submit it at a later date. The fee for such re-submission shall be the same as the original examination fee.

14. In the case of a candidate who holds a Bachelor's degree and not a Master's Degree, the Professorial Board may, at any time before submission of the thesis, approve an application by the candidate or by his supervisor that the

candidate be registered for a Master's Degree instead of the Degree of Doctor of Philosophy (provided that this shall not apply in a subject where there is no provision for a thesis in the course of study for a Master's Degree). Such a candidate may then submit his thesis for a Master's degree and the thesis may be accepted in fulfilment of the requirements for that degree. B.Sc.*Course Regulations for the Degree of Bachelor of Science*

1. A candidate for the Degree of Bachelor of Science shall be matriculated and thereafter shall follow a course of study of not fewer than three years, keeping terms in accordance with the Terms Regulations and passing the prescribed examinations.

2. (a) The course of study for the degree shall be of either type A or type B, defined as follows:

Type A: The course of study shall consist of eight units and shall include at least three units higher than Stage I, at least one of which shall be a Stage III unit.

Type B: The course of study shall consist of nine units and shall include at least three Stage II units.

(b) A unit shall consist of one year's work in one of the subjects prescribed by these regulations.

NOTE: For a course of type B, a Stage III unit is not compulsory. A candidate may not proceed, however, to the degree of Bachelor of Science with Honours, or to the degree of Master of Science unless he has included in or added to a course of type B a Stage III unit of a subject which is a subject for the degree of Bachelor of Science with Honours or Master of Science.

(b) Notwithstanding anything in these regulations a candidate who has qualified with outstanding merit for the New Zealand Certificate in Science (Chemistry) may with the permission of the Professorial Board be admitted to the course for the degree with exemption from Chemistry I and two other unspecified Stage I units. To complete the requirements for the course any candidate so admitted must be credited with a pass in

Physics I, Pure Mathematics I, Chemistry II, and Chemistry III and one other unit at a level above Stage I.

Any such candidate who has not passed the University Entrance Examination shall apply for admission under the Provisional Admission Regulations.

5. Every course of study for the degree shall include at least four subjects. For the purpose of this regulation Comprehensive Mathematics shall not constitute a separate subject in a course including both Pure Mathematics and Applied Mathematics.

6. Every course of study for the degree shall include a Stage I or Stage II unit in each of three subjects chosen from the following: Applied Mathematics, Biology, Botany, Chemistry, Comprehensive Mathematics, Geology, Physics, Pure Mathematics and Zoology. For the purpose of this regulation Comprehensive Mathematics shall not constitute a separate subject in a course including both Pure Mathematics and Applied Mathematics.

7. Every course of study for the degree shall include at least four units chosen from Botany, Chemistry, Comprehensive Mathematics, Geology, Physics, Pure Mathematics and Zoology.

8. A candidate shall not be enrolled in a Stage II unit involving practical work unless he has been credited with passes in at least two Stage I units.

9. A candidate shall not be enrolled in a Stage III unit involving practical work unless he has been credited with passes in at least five units, provided that, for the purpose of regulation 9 and notwithstanding anything contained in any other course regulation, a candidate shall be deemed to have passed in Stage I of any subject if he has been credited with a pass in Stage II of that subject.

NOTE: He will not be credited with the Stage I unit—see regulations 22, 23 and 24.

10. A candidate enrolled in a Stage III unit involving practical work shall not in the same year be enrolled in more than one other unit involving practical work.

11. A candidate shall not be enrolled in Physics II unless

he has been credited with a pass in Comprehensive Mathematics I, or Pure Mathematics I or II.

12. A candidate shall not be enrolled in Physics III unless he has kept terms or been credited with a pass in Pure Mathematics II.

21. The course regulations for the degree of Bachelor of Arts shall apply, with the necessary modifications, where a

candidate wishes to be enrolled in any subject which is also a subject of examination for that degree.

22. Notwithstanding anything contained in these regulations, a candidate may, with the permission of the Professorial Board, take Physics II without having passed the pre-requisites prescribed in these regulations. If the candidate passes in Physics II he shall be credited with Physics II but shall not enrol for or be credited with Physics I as a unit for any University degree or diploma. (c) A candidate who has passed in Engineering Mathematics IV may proceed to a subject for which Applied Mathematics II is a pre-requisite but shall not be credited with Applied Mathematics II as a unit for the Degree of Bachelor of Science unless he has passed the examination in that unit.

(d) For the purpose of this regulation subjects that are common to the two courses shall be passed at the same standard as for the Degree of Bachelor of Science, and in regard to one of the two courses shall be treated as exempted subjects for the purpose of the Examination Regulations.

25. (a) A candidate who has been credited with Psychology I for the Degree of Bachelor of Arts may be credited with a pass in Psychology I (General and Experimental) for the degree of Bachelor of Science on the report of the Professor of Psychology that he has satisfactorily completed additional practical and written work.

- (i) by passing in each of two half-units of that unit in different years, or
- (ii) by presenting two half-units of that unit in the same year and passing the unit as a whole.

(c) A candidate who presents two half-units of a unit in the same year and fails the unit as a whole but passes in one half-unit will be credited with a pass in that half-unit.

(d) In order to be credited with a pass in a unit which

comprises more than two half-units a candidate must present a combination of two of the half-units which has been approved by the Head of the Department which teaches that unit.

38. Two half-units from two different subjects or from different stages of the same subject shall be called a composite unit and shall count as one unit for the purposes of these regulations. A candidate shall not be credited with a pass in a composite unit unless he has passed each half-unit, whether in the same or different years. The stage of a composite unit shall be deemed to be the stage of its less advanced half-unit.

43. A candidate shall not be enrolled in a half-unit in Stage III of any subject unless he has fulfilled all the conditions for enrolment in Stage III of that subject, provided that, with the approval of the Head of the Department teaching that subject, a pass in a half-unit of any unit required as a prerequisite may be accepted as a pass in that unit for the purposes of this regulation.

B.Sc. (HONS.)*Course Regulations for the Degree of Bachelor of Science with Honours*

1. A candidate for the Degree of Bachelor of Science with Honours shall before presenting himself for examination have—

(d) In approving a course of study containing a paper substituted pursuant to this regulation the Professorial Board shall ensure that the substituted paper shall be relevant and complementary to the other papers of the candidate's course.

(e) Any degree certificate issued to a candidate in respect of a course authorised by this regulation shall show the substitution made in that course.

15. (a) There shall be the following classes of Honours: First Class Honours, Second Class Honours (first division), Second Class Honours (second division), and Third Class Honours. This sub-clause of this regulation shall be effective from 1 January 1964.

(b) A candidate shall be eligible for the award of First or Second Class Honours in any subject only at the first occasion on which he presents himself for examination in that subject, provided, however, that a candidate whose performance has been seriously impaired by illness (certified as under the aegrotat regulations) may elect, instead of applying for an aegrotat award, to present himself at a subsequent examination and still be eligible for the award of First or Second Class Honours, subject to the provisions of clause (c) hereof.

(c) A candidate shall be eligible for the award of First or Second Class Honours only if he completes all the requirements for the award (including the requirements of regulation 9) within two years of completing a course for the degree of Bachelor of Science (or of being deemed to have completed that course by virtue of regulation 2(a)) provided that this period may in special cases be extended by the Professorial Board.

NOTE: An extension of the period will be granted if it is clear that the period exceeds two years because of circumstances beyond the control of the candidate.

13. (a) A candidate may, with the approval of the Heads of Departments concerned, substitute for a paper in the prescription of the subject he is presenting one or more papers from another subject. A candidate may not substitute any paper which he has passed or any paper which in the opinion of the Professorial Board corresponds substantially with any paper he has passed.

(b) The paper or papers so substituted shall be selected from the papers for the degree of Bachelor of Science with Honours and Master of Science.

(c) A candidate shall not substitute a paper from another subject unless he has at a previous examination been credited with a pass in that subject at Stage III. A pass in Pure Mathematics III or Applied Mathematics III shall satisfy this requirement in respect of Mathematics. A pass in the half unit Geochemistry III (a) shall satisfy this requirement in respect of Geochemistry. A pass in both Pure Mathematics II and Statistical and Numerical Mathematics II, and in at least one Stage III unit as prescribed for the Degree of Bachelor of Science, shall satisfy this requirement in respect of Information Science.

(d) In approving a course of study containing a paper substituted pursuant to this regulation the Professorial Board shall ensure that the substituted paper shall be relevant and complementary to the other papers of the candidate's course.

(e) Any degree certificate issued to a candidate in respect of a course authorised by this regulation shall show the substitution made in that course.

(b) The candidate shall present his thesis in the year in which he sits the papers or in one of the next three succeeding years, but this period may at any time in special cases be extended by the Professorial Board. Notwithstanding the foregoing provision a candidate who has passed the papers but has not presented his thesis on 1 January, 1963, shall present his thesis not later than 1 January, 1966, but this period may at any time in special cases be extended by the Professorial Board.

(c) The candidate shall submit his thesis to the Registrar of the Victoria University of Wellington, who shall hand it to the Head of the Department concerned.

NOTE: If the thesis is submitted later than the first day of November in any year, it may not prove possible for the candidate to graduate at the public ceremony to be held in the following year. laboratory work, within a University institution; and stating also what part the teacher played in the preparation of the thesis. In special cases, with the permission of the Professorial Board, part of the work may be carried out in a University institution overseas.

- (e) If the examiner with the concurrence of the assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to re-submit it at a later date.

(c) A candidate shall be eligible for the award of Honours only if he completes all the requirements for Honours (including the requirements of Regulation 8) within three years of completing a course for the Degree of Bachelor of Science,

Two-year course is designed as a self-contained course in English for students offering two units subsidiary to another major subject or subjects.

THREE-YEAR COURSE:

This is the course for all students advancing English as their main subject.

2711, 2712 English IB. Practical Criticism (Poetry, Prose, Drama); Chaucer; English Renaissance literature (Poetry, Prose, Drama).

NOTE: Students may transfer from the A to the B course (or vice versa) on entering Stage II, but entry to English III from English IIA will be limited to approved students. As this approval is dependent on performance in English I and II, all students who are likely to make English their main subject are advised to follow the Three-Year Course as set out.

II. Courses in *English Language* and *Mediaeval English*:

These courses are not available for first-year students.

ONE-YEAR COURSES:

2766, 2767 Mediaeval English II. The literary study of Old English prose and poetry and Middle English poetry, including Chaucer. *OR* English Language II, as below.

NOTE: This course is limited to approved students in the final year of their course. Students who can offer no classical language are strongly recommended to take Greek History Art and Literature.

DIPLOMA COURSE

The diploma course runs from March to October in the second year of the University. It is intended for students who have had at least two years' experience in teaching English, and expect to teach English on their return to their home country.

For the award of the Diploma a good professional standard of comprehension and production of spoken and written English is the first requirement, and daily practice sessions in the Language Laboratory and classes constitute a fundamental part of the course.

The second requirement is a straightforward, adequate knowledge of the main theoretical aspects of language study, and an understanding of their relevance to the study of English. This study constitutes the second part of the course.

The Institute offers two courses, mainly for Colombo Plan Scholarship holders. Before enrolment, overseas students need to have studied English for at least ten years in primary and secondary institutions, or six years in secondary institutions.

PROFICIENCY COURSE

Students who achieve a satisfactory standard of comprehension and production of spoken and written English are awarded the Certificate of Proficiency in English.

DIPLOMA COURSE

The diploma course runs from March to October, its duration being one academic session, and it is intended mainly for teachers from South-East Asia and the Pacific Islands, who have had at least two years' experience in teaching English, and expect to teach English on their return to their home country.

For the award of the Diploma, a good professional standard of comprehension and production of spoken and written English is the first requirement, and daily practice sessions in the Language Laboratory and classes constitute a fundamental and for many students a major part of the course.

The second requirement is a straight-forward, adequate knowledge of the main theoretical aspects of language study, an understanding of their relevance to the study of English, and an understanding of their application to the teaching of English. Lectures, tutorial classes and reading assignments in this study constitute the second part of the course.

A good professional standard of teaching is required. Lectures on Teaching Methods, and associated observation and practice of teaching skills constitute the third part of the course. It is followed by attendance at courses in New Zealand Teachers' Colleges, and observation and practice in New Zealand schools.

There is opportunity for optional individual or group work, in the study of literary texts or in language study, for students who are capable of undertaking it, and additional short courses may be available.

Successful students are awarded the Diploma in the Teaching of English as a Second Language.

Course 3001 deals with the elements of the landscape and is strongly based on field work. In particular it concentrates attention on the soil as the product of land, climate, vegetation and human occupancy. The basic text is A. N. Strahler, *The Earth Sciences, or Physical Geography* (Second Edition). Students are also recommended to obtain F. K. Hare, *The Restless Atmosphere*; G. V. Jacks, *Soil*; G. H. Dury, *The Face of the Earth*; P. Gourou, *The Tropical World*.

Course 3002 stresses the need for Geography to be studied in the mainstream of social sciences. It focuses on the interaction between society and the physical environment. The course lays emphasis on basic social science concepts to provide a firm grounding for later courses; it requires certain key terminology and definitions to be learned, and throughout illustrates theoretical principles by examining case studies of specific landscapes and countries. Basic texts for the course will be R. Heilbroner, *The Making of Economic Society*; P. Wagner, *The Human Use of the Earth*; D. Wrong, *Population and Society*.

GEOGRAPHY IB:

Course 3011 is of particular relevance to students taking courses in the biological sciences. A study is made of those

elements of the land which are directly used and affected by man. Biogeography, Agricultural Geography and Conservation will be studied. In preparation for the course students should read G. P. Marsh, *Man and Nature*; P. Wagner, *The Human Use of the Earth*. Further specific references will be given during the course.

Course 3012 is designed as a geographic study of development and underdevelopment. The gradient in levels of living and of development between the rich and poor nations is examined and the human and environmental causes of these gradients are analysed. Particular attention is given to the structural causes and human implications of "underdevelopment" and selected case-studies are used to illustrate the diversity of development problems in various parts of the world. As background texts the following are essential: J. L. Sampedro, *Decisive Forces in World Economics*; G. Barraclough, *An Introduction to Contemporary History*; P. Jalée, *The Pillage of the Third World*; G. Myrdal, *Economic Theory and Underdeveloped Regions*; William Morris, *Selected Writings* (edited by Asa Briggs).

GEOGRAPHY II: 3041, and either 3042 or 3043

Courses at all stages are planned on the assumption that a reasonable standard of preliminary reading has been reached. Students are expected to collect reading lists for succeeding sessions, with advice for reading during the long vacation, from members of staff as soon as final examinations for the year are over.

HISTORY IA: 3571, 3572

HISTORY IB: 3581, 3582

ASIAN HISTORY I: 3591, 3592

PRESCRIPTIONS:

OPTION A: 3571, 3572: Outline of the history of Europe (including Great Britain) during the Middle Ages.

OPTION B: 3581, 3582: Aspects of Modern History since 1815.

OPTION C: 3591, 3592: Asian History I: Outline of the Civilizations of Asia.

The work of these classes comprises:

(1) *Option A*: a general course of lectures mainly on mediaeval Europe, including England.

Option B: a general course of lectures covering some of the main trends and problems in modern history, with special attention to Europe, Asia and North America.

Option C: a general course of lectures on Asian History.

(2) essay and seminar work, which are an essential part of these courses. Topics for special study will be announced from time to time.

All courses are planned on the assumption that students have a reasonable background of knowledge before the session begins. Vacation reading of a character preparatory to University work is therefore strongly recommended.

Students are advised to procure some good general survey for the first part of the course. For Option A, Davis, *History of Medieval Europe*, and Sayles, *Medieval Foundations of England*, are especially recommended; and for Option B, Thomson, *Europe since Napoleon*. It is extremely important,

however, that such books should be supplemented by wider reading. Students and prospective students are urged to communicate with the Department for further particulars and for reading lists.

Students are recommended to take Option A before studying History II; Options B and C, however, will also be accepted as qualifying for entry to History II.

Options A, B and C may all be counted as units towards a B.A. degree, subject to the approval of individual courses in all cases.

HISTORY II: 3611, 3612

PRESCRIPTION:

FACULTY OF LAW

BACHELOR OF LAWS (LL.B.); BACHELOR OF LAWS WITH HONOURS (LL.B. (HONS.)); MASTER OF LAWS AND HONOURS IN LAW (LL.M.); AND PROFESSIONAL EXAMINATIONS IN LAW

In April 1966 the Council of Legal Education agreed on new regulations for the professional examinations in law. These regulations, which are to be found in the 1968 University Grants Committee Handbook, came into force on 1 January 1967. The new professional regulations resulted in a revision of the Victoria University of Wellington LL.B. degree regulations. An LL.B. Honours degree was also introduced in 1967.

The new course regulations governing the degrees of LL.B., LL.B. (Hons.) and LL.M. are set out elsewhere in this Part of the Calendar. Subjects for the LL.B. and LL.B. (Hons.) degrees must be taken in the order in which they appear in the course regulations unless special exemption is obtained.

Changes in New Course

The main changes introduced by the new Professional and Degree Regulations are as follows:

(a) The distinction between the qualification for a barrister and for a solicitor is removed.

(b) Entrants to the legal profession will be required to hold the LL.B. degree of a New Zealand university and to complete a professional course consisting of six additional subjects which will be taught at and examined by the University.

(c) The Victoria University of Wellington LL.B. degree is now a seventeen unit degree comprising three units from the subjects prescribed for the degrees of Bachelor of Arts or Bachelor of Science (including at least one of English I, History I or Philosophy I) and fourteen *law* subjects as specified in the Course Regulations. Provision is made for a number of options.

NOTE: Teaching will not necessarily be offered in all of the optional subjects in 1969.

The subjects for the professional course are:

Conveyancing and Draftsmanship
Legal Ethics and Advocacy

Office Administration and Accounting
Taxation and Estate Planning
The Law of Civil Procedure
The Law of Evidence

A student who has not included any of the subjects, Commercial Law and Personal Property, Company Law and the Law of Partnership, and Family Law, in his degree course is required to pass the subject or subjects concerned in his professional course. A candidate who passes Taxation and Estate Planning for LL.B. is required to include in his professional course an optional subject, chosen from Part III of the LL.B. Course Regulations, that he has not already passed for the LL.B. degree.

Position of Existing Students

Students enrolled before 1967 may continue their course under the pre-1967 regulations but must transfer to the new regulations if they have not completed their courses by the end of 1969. (For the pre-1967 regulations see 1966 Calendar).

LL.B. Honours

(a) Candidates for the LL.B. Honours course complete the same subjects as LL.B. candidates, except that they are required to replace one of the optional LL.B. subjects by a subject chosen from the LL.M. course. Honours candidates must also undertake a piece of legal writing and attend tutorials in all their subjects. They may be required to take an oral examination at the end of their course. Honours candidates are expected to attend the University for at least three years as full-time students.

(b) Students who enrolled in 1966 and who elect to transfer to the new course may be admitted to the Honours course in 1969 if they have completed Part I of the new LL.B. course and if their work during 1966, 1967 and 1968 has been of Honours standard.

(c) Students who enrolled for the first time in 1967 or in subsequent years may be admitted to the Honours course at the beginning of the third year of their course if they have completed Part I of the LL.B. course and if their work during the first two years has been of Honours standard.

(d) Students who have completed their B.A. degree under the conjoint B.A.-LL.B. regulations (see regulation 25 of the course regulations for the B.A. degree) may, if their work has

reached the required standard, be admitted to the Honours course.

(e) Students who are not admitted to the Honours course under the above provisions may be given the opportunity to join the Honours course if their performance in the LL.B. course in their third year has been particularly good.

Tutorial Programme

There are compulsory tutorials in the Legal System, the Law of Contract, the Law of Torts, Land Law, Criminal Law, Commercial Law and Personal Property and Equity. The Department of University Extension of the University issues separate brochures which give details of different courses organised not only in Wellington but in other parts of the university district which covers the southern half of the North Island and Nelson and Marlborough. The extension programme for the Wellington metropolitan area is described in a comprehensive booklet issued each year about the beginning of February. Information and brochures can be obtained from the Director of University Extension, P.O. The initial contact with the Health Service is by way of a medical examination which is available to all students. First year students should enrol for a full medical examination at the time of their enrolment with the University.

A general medical service is readily available to students in times of illness or injury. This general medical service is restricted to those students whose homes are outside Wellington who have no contact with a local medical practitioner. A University Bursary may be held with a Taranaki Scholarship and with an award made by the Ngarimu Scholarship Fund Board.

Any previous award made from public funds to assist a student in his university studies will be deemed to have been held in terms of the University Bursaries Regulations 1966, for the purpose of determining the terms and conditions under which he may be awarded a university bursary. In general, a year of assistance under the award will be counted as a year of tenure of a bursary and the student's academic record while holding the award must satisfy the conditions of the regulations for the continuance of a university bursary.

A Fees or Fees and Allowances Bursary is available for a recognised course only and is tenable for the minimum period in which a student, pursuing a full-time course in each year, could complete his recognised course. However, a student who, having completed his recognised course, enrolls the following year in a second recognised course,

may apply for the extension of the period of tenure of his bursary. The total period of tenure of the bursary for both courses may not exceed five years, or one year more than the period for which a bursary is tenable for either course taken independently, whichever is the longer. A bursary for a second course may, in certain circumstances, be available during the final year of the first course.

A Masters' Bursary is available for the minimum period in which a full-time student can complete the course but the period of tenure will not normally be less than one year nor more than two years.

For the purposes of these regulations the Director-General of Education has approved the following periods of tenure:

<i>One Year</i>	<i>Two Years</i>	<i>Three Years</i>	<i>Four Years</i>	<i>Five Years</i>	<i>Six Years</i>

3. FULL-TIME COURSES

To be eligible for a Fees and Allowances Bursary a student must be enrolled for a full-time course. Students wishing to claim these bursaries should therefore ensure at the beginning of the year that their course can be certified as constituting a 'full-time course'. The Professorial Board has ruled that for the purposes of the University Bursary regulations, a 'full-time course' means:

- Arts, Science, and Commerce and Administration*
- 3 or more units;
- 2 units including at least one Stage III;
- 2 units including at least one Stage II, provided that this is consistent with the particular student completing

the course within the normal period of the bursary and that the two units are taken within a programme approved by the Head of the Department of the candidate's major subject;

any subject or combination of subjects which constitute the final year of the course being completed within the normal term of the bursary.

Law

3 Arts units;

2 Arts units and 2 Law subjects;

1 Arts unit and 3 Law subjects;

5 Law subjects;

4 Law subjects which constitute the final year of a course being completed within the normal term of the bursary by a student who is not in employment. (For this purpose Legal System is regarded as an Arts unit).

The Dean of the Law Faculty may approve as a full-time course for bursary purposes a course which includes less than the number of units or subjects prescribed above if he considers that such a course is preferable on academic grounds.

4. SUSPENSION OF A BURSARY

A Fees or a Fees and Allowances Bursary shall be suspended if the holder:

(a) being a student enrolled in a course in which passes are normally credited in individual units, fails for the first time to be credited with passes in at least two units of his course, or

(b) being a student enrolled in a course in which passes are normally required in groups of subjects rather than in individual units, fails for the first time to pass

what is in the opinion of the Professorial Board more than half of the work of a full-time course.

A bursary will not be suspended if the student can produce evidence that will satisfy the Director-General of Education that the failure was due to ill-health or other sufficient cause beyond his control.

A bursar who, for a reason other than failure to qualify for the continuance of his bursary, is unable for the time being to continue the course for which the bursary was awarded may apply to the University Registrar for the voluntary suspension of his bursary.

5. REINSTATEMENT OF A BURSARY

A Fees or a Fees and Allowances Bursary suspended under (a) above may be reinstated if the holder is credited in his next year of study at a University in New Zealand with passes in two units of his course; a Fees Bursary or a Fees and Allowances Bursary suspended under (b) above may be reinstated if the holder is credited in his next year of study at a University in New Zealand with passes in more than half of the work of a full-time course.

6. TERMINATION OF A BURSARY

If a bursar fails to satisfy the requirements for the reinstatement of his bursary, his bursary is terminated.

As a general rule only one suspension for failure is permitted. If a bursar fails for the second time to be credited with sufficient of his course to qualify for the continuation of his bursary in the following year, his bursary is terminated.

A bursary may also be terminated if the holder without the consent of the Director-General ceases to pursue the course of study for which the bursary was granted. It is therefore essential that students obliged to discon-

tinue their studies should apply to the Registrar for a voluntary suspension of their bursary. A student who has failed to satisfy the requirements for the continuance of his bursary and who is unable to continue with his studies must also apply to the Registrar for permission to discontinue his studies for a specified period.

SECONDARY TEACHERS' STUDENTSHIPS

Studentships are available to students wishing to study for degrees in Arts, Science, Home Science, Commerce, Agriculture and Music and for Diplomas in Home Science, Fine Arts and Physical Education.

Successful candidates will be enrolled at the Teachers' College in the University centre where they are studying and will thus be members of the teaching profession from the time they take up the Studentship.

In 1969, all first-year and second-year students and those third-year students who elect to do so will be paid under the new system of allowances introduced in 1967. Under this system, all U1 students will receive an allowance of \$425, U2 students \$535 and those U3 students who so elect, an allowance of \$650. In their U4 and U5 years, these students will receive \$750. They will also be eligible to claim any university bursary and supplementary allowance for which they qualify under the University Bursary Regulations 1966.

Those third-year students who elect to remain under the old system and new U4 students will be paid an allowance of \$940 in 1969. Tuition fees will be paid and boarding allowance of \$100 will be granted to students required to live away from home.

All students, regardless of whether they are still under the present conditions in 1969 or not, will be placed under the new conditions in 1970.

Successful applicants will be required to enter into an

agreement and provide a bond accepting the obligations laid down for the Studentships.

Applications will be accepted up to the beginning of the University year but to facilitate organisation, applicants are asked to forward their applications to the Department of Education by 1 August of the previous year.

SOCIAL SCIENCE BURSARIES

The Director-General of Education may award open bursaries tenable at the Department of Social Administration and Sociology, Victoria University of Wellington. Applicants must satisfy the conditions of entry to the Department of Social Administration and Sociology.

Further details may be obtained from the Director-General of Education, Wellington C.1, with whom applications on the prescribed form close on 30th November.

DR W. E. COLLINS LECTURE

This lecture arises from a bequest of £500 by Dr W. E. Collins for the encouragement of loyalty to our sovereign and patriotism among graduates and undergraduates of the Victoria University of Wellington.

1. The University shall from time to time arrange for the presentation of a Dr W. E. Collins Lecture on a theme which, in the opinion of the Council, will give effect to the purpose of the bequest.

2. The Lecture shall be presented at the Victoria University of Wellington at a time when graduates and undergraduates can be expected to attend, and shall be open to the public.

3. It shall be the responsibility of a Committee appointed by the Professorial Board to recommend to the Council, through the Professorial Board, suitable arrangements for the presentation of the Lecture. The Committee shall report to the Professorial Board before 30th October in each year.

4. The income of the fund may at the discretion of the Council be applied in paying

(a) an honorarium to the lecturer,

(b) travelling, advertising and other expenses incurred in connection with the Lecture, and

(c) all or part of the cost of publishing the Lecture.

5. If in any year the income from the fund or any part thereof is not expended, it may be used in a subsequent year, or, if the Council so decides, may be added to the fund.

COLONIAL APPOINTMENTS SCHEME

APPOINTMENTS FOR UNIVERSITY GRADUATES

Under the Colonial Appointments Scheme, which has been in operation for many years, New Zealand university graduates may be considered for appointment to posts in

British dependent territories. Although recruitment is now on a reduced scale, men and women with qualifications and experience in Science, Law, Education, Engineering, etc., are still required.

Information as to vacancies, salaries, and conditions of service may be obtained from the Dominion Liaison Officer, Government House, Wellington.

CONFERENCE LINES TRAVEL CONCESSIONS

For Scholars Travelling to Europe

The London Passenger Conference (through the Australian and New Zealand Passenger Conference) grants annually to up to fifty students travelling to Europe a concession on their fares both from and to New Zealand. Passages will be by British Lines members of the Conference and will be granted on the following conditions:

1. The Assisted Passages are available to graduates and Rhodes Scholars of any university in New Zealand who desire to proceed to Europe for the purpose of further study, who are approved by the University Grants Committee as worthy of support, and who will be devoting their whole time while abroad to study and research.
2. All passages will be for travel within the recognised off-season periods to England (August/December) and during the months March/June back to New Zealand. The Conference Lines shall nevertheless have the option to allocate accommodation in ships sailing within one month on either side of such periods.
3. The nominated student will pay 80% of the minimum rate of the ship in which he is travelling. Where superior accommodation is requested a student will be required to pay the difference in fare between the tariff

rate for accommodation occupied and the minimum rate for the ship.

4. Allocation of passages will be dependent upon availability of suitable accommodation and all berthing shall be at the sole option of the shipping company concerned except where specific accommodation has been booked and paid for.

5. Wife and dependent child or children travelling with a nominated student will pay the tariff rate for the accommodation occupied.

6. In the event of a nominated student being allocated a passage in a ship which sails from, or terminates its voyage at, Sydney without calling at a New Zealand port, the local trans-Tasman fare will be payable in full and the concession will be based on the fare Sydney/United Kingdom or United Kingdom/Sydney.

7. Application shall be made to the University Grants Committee by filling in two copies of a form which will be supplied to those who are awarded scholarships tenable overseas.

For all Scholars returning to New Zealand

The University Grants Committee has agreed to make a grant-in-aid to all New Zealand scholars who have been studying abroad in Europe or elsewhere except in the case of those whose fares back to New Zealand are being paid by some other agency. Travel assistance from the London Passenger Conference does not disqualify a student from receiving a grant-in-aid from the University Grants Committee.

Application forms can be obtained from the Secretary of the University Grants Committee, P.O. Box 8035, Wellington, and they should be submitted in advance of travel back to New Zealand.

UNIVERSITY GRANTS COMMITTEE
RESEARCH COMMITTEE GRANTS

Since 1947 the Government has each year provided a grant to be used for promoting and maintaining research in the Universities of New Zealand.

The grant was originally £10,000, but was subsequently raised by stages to £25,000 in 1959 and following the Hughes Parry Report, to £65,000 in 1960 and £100,000 from 1961 onwards. In the quinquennium commencing 1 April 1965 the grant will increase from \$300,000 in the first year to \$500,000 in the fifth year ending 31 March 1970.

The Research Fund was until 1961 administered by a committee appointed by the Senate of the University of New Zealand. On 1 January 1962, this Committee was re-constituted as a sub-committee of the University Grants Committee as provided by the Universities Act 1961, No 54, sections 33-37.

Under this Act the Research Committee consists of

- (a) The Chairman of the University Grants Committee
- (b) The Director-General of the Department of Scientific and Industrial Research
- (c) Five University teachers appointed by the University Grants Committee after consultation with the Vice-Chancellors' Committee
- (d) Such other person or persons as the University Grants Committee may from time to time appoint.

Members are appointed for a term of three years and may be re-appointed. The five University teachers do not sit as representatives of their Universities.

The Committee has power to make its own regulations but has not done so; it makes an annual report to the University Grants Committee which prints it and sends copies to each University Council.

MEMBERSHIP

At present (1968) the members of the Research Committee are:

Mr. A. J. Danks, Chairman, University Grants Committee—Chairman.

Dr L. J. Wild, formerly Pro-Chancellor, University of New Zealand and past Chairman of the Research Committee—Deputy Chairman (appointed by the University Grants Committee).

Dr W. M. Hamilton, Director-General, Department of Scientific and Industrial Research.

UNIVERSITY TEACHERS:

Professor G. T. S. Baylis, Botany Department, Otago.

Professor G. E. Hughes, Philosophy Department, Victoria.

Professor A. L. Titchener, Engineering Department, Auckland.

Professor R. H. M. Langer, Plant Science Department, Lincoln.

Professor A. Crowther, Psychology Department, Canterbury.

Appointed by the University Grants Committee:

Professor J. Packer, Professor Emeritus, Canterbury.

Sir Arthur de T. Nevill, Deputy Chairman, University Grants Committee

Dr F. G. Soper, formerly Vice-Chancellor, Otago.

Mr H. G. Lawrence, University Grants Committee—Secretary.

MEETINGS OF RESEARCH COMMITTEE

From 1965, the Committee will hold two meetings each year, in June and November.

PURPOSE OF GRANTS

Up to 1964, the Committee allocated approximately 20% of its Grant each year to the award of Research Fund Fellowships. From 1965 onwards, Research Fellowships will be brought under the Post-graduate and Post-doctoral Scholarships scheme of the University Grants Committee and will be no longer the concern of the Research Committee. The Research Fund will therefore be used wholly to finance research projects of members of University staffs.

APPLICATIONS FOR GRANTS

The Research Committee will consider applications from individual members or groups of members of *University staffs* for grants to be expended on the purchase or construction of equipment, for travel in New Zealand and overseas, for purchase of books, microfilms, etc.

Though the Committee has purposely refrained from tying its hands by the adoption of rules and regulations, there are certain principles it has observed when considering applications for grants, here set down:

(1) Grants are intended to promote or stimulate more intensive research within, or closely associated with, Universities in New Zealand but they should not be regarded as the sole means of providing for such research.

The fact that a University is prepared to make a contribution is substantial evidence that the project is worthy of support by the Research Committee: so is financial support that may be enlisted from any other responsible institution.

(2) The Committee is anxious to support new and well-qualified recruits to University staffs.

(3) The Committee assumes that the applicant and his University, before they submit the necessary formal application have assessed the additional costs (implied in the nature of the research) that they may have at any time to bear, should the application be granted.

(4) Normally the Committee will not make grants for the employment of technical or research assistants, or to pay for student help. Nor will it provide funds for the purchase of apparatus or equipment which is of a non-specialist nature, or of a type which should be available in any reasonably equipped University department (e.g. desk calculators, standard microscopes).

(5) The Committee will consider applications for assistance to purchase specialist motor vehicles, provided that the applications are accompanied by a statement from the University that arrangements will be made for the care and maintenance of the vehicle and that the University itself is prepared to contribute substantially to the purchase price.

(6) The Committee will consider applications for grants for travel and subsistence on the basis of actual fares by public transport, plus \$1.50 per day for field excursions, or \$4.50 per day where hotel costs will be incurred.

Where transport is by private car, a mileage allowance of 5 cents a mile may be allowed if public transport is unsuitable or the use of a car is essential. If the journey is over a long distance, equivalent fares by public transport may be paid instead of a mileage allowance, for all or part of the journey. An applicant will not be allowed day-to-day maintenance costs whilst he is employed on, or adjacent to, his own University campus.

(7) The Committee will not make grants for costs of stationery, typing or publication of research material.

ACCEPTANCE OF GRANTS

A grant offered by the Research Committee is notified through the University Registrar to the successful applicant, who is required to sign a form of acceptance of the conditions of the award. The signed acceptance is held by

the Research Committee, which pays the grant moneys to the University Registrar. The Registrar makes disbursements on the authority of the grantee, and accounts to the Research Committee as at 31 December each year.

TERM OF GRANT

A research grant is made with the understanding that the amount will be expended within two years of the date on which a signed acceptance form is due at the office of the University Grants Committee. A grant, or any part of a grant, not expended within that period is to be refunded to the Research Committee. The grantee may apply to the Research Committee (as for a new grant) for an extension beyond the two-year period.

DISPOSAL OF EQUIPMENT, ETC.

Except where the Research Committee specifically 'tags' a grant, reserving to itself the right to decide disposal, all equipment, apparatus, books, etc., purchased from Research Grant funds vests immediately in the grantee's University, to be retained for his use for so long as he requires it, after which it becomes part of the University general equipment or library.

Such equipment may, at the discretion of the University, be transferred free of cost to any other University institution in New Zealand, but if it should go to a University outside New Zealand, a fair and reasonable charge should be made for it.

HOW TO APPLY

Printed forms of application for research grants are available from the Registrar of each University or Agricultural College. Since 13 copies are required in all, Xerox copies may be supplied, or the application may be cyclostyled using the printed application form as a guide. It

is suggested that the method of copying be discussed with the Registrar.

Applications (13 copies) should be forwarded to the Registrar for countersignature and transmission of 12 copies to the University Grants Committee, P.O. Box 8035, Wellington.

Applicants will help themselves and the Research Committee if they will

- (a) have applications typed (fountain pen ink will not reproduce in most copying processes);
- (b) answer all questions on the application form. Applications should be concise without being so concise as to be unintelligible;
- (c) restrict attachments or enclosures to essentials or supply 13 copies thereof;
- (d) clearly state the amount of the grant required (in whole dollars) and the principal heads under which it will be expended (e.g. purchase or construction of equipment, travel in New Zealand, overseas travel, purchase of books, microfilms, consumable stores);
- (e) consult with a member of the Research Committee before submitting an application.

TIMETABLE

Applications—Applications for consideration at any meeting must reach the office of the University Grants Committee by the following dates:

For the June meeting—30 April

For the November meeting—30 September.

Acceptances—An offer of a grant will lapse if an acceptance thereof is not received by the Research Committee by the following dates:

For June awards—31 August

For November awards—31 January.

GENERAL COMMENTS

1. Recipients of grants may correspond direct with the Research Committee, but correspondence should be either routed through, or copies supplied to, the Registrar. This will ensure that the grantee, the University and the Research Committee are fully informed and that the administration of the award is properly co-ordinated.

2. At present (1968) each University institution except Waikato and Massey Universities has a staff member as a member of the Research Committee. Another member of the Committee, Dr L. J. Wild, formerly Chairman (1947-1961) of the Research Committee, and now its Deputy Chairman, visits each University at least once each year. Occasional visits are made by Sir Arthur Nevill, Dr Soper and Professor Packer.

Thus each grantee or intending applicant has the opportunity of discussing his project with a member of the Committee. He is strongly recommended to do so, and thus avoid possible misunderstanding and save time and correspondence.

3. When a University, or a staff member, wishes to apply to a *State Department* for a grant for a research project, the application must be channelled through the University Grants Committee.

4. *Reports.* No regular reports are required from grantees on the progress or completion of the project. The Committee may, however, at any time call for a report on the work undertaken with the aid of a grant.

Where work done with the support of a research grant is published, the publication should contain a reference to that support. One copy should be forwarded to the Research Committee, and another deposited in the library of the University institution of which the grantee is a member.

STATE SERVICES COMMISSION BURSARIES AND GRANTS

The State Services Commission offers to employees of Departments administered by the Commission study awards relating to a wide variety of courses.

Briefly, these fall into three categories:

Category A: awards for 'popular' specialist courses (e.g., accountancy, engineering, architecture, forestry, science, general agriculture, traffic engineering).

Category B: awards for 'rare' specialist courses (e.g., horticulture, food technology, farm economics, biochemistry) which have been declared by the Commission to be of critical value to the department concerned.

NOTE: These awards are designed for school leavers and probationers who are paid a series of allowances.

Category C: awards giving leave to selected public servants who are no longer on probation. These awards are:

(i) **FINAL YEAR:** Full salary for full-time study in arts, law, commerce, or accountancy. Principal condition is a bond for three years' service.

(ii) **PENULTIMATE YEAR:** Half salary for full-time study for one year to applicants who are generally under twenty-two years of age on 1 March, who have completed at least four units in arts, commerce or accountancy or ten units in law. Condition is a bond for three years' service or five years' service if followed by a Final Year Study Award.

(iii) **HONOURS YEAR:** Full salary for full-time study for one year to obtain an honour's degree in commerce, arts or law. Principal condition is a bond for three years' service.

Closing date for Category C awards is 1 December.

Further details about these awards may be obtained

from the State Services Commission, P.O. Box 8004, Wellington.

REFUND OF FEES: The Commission arranges for departments to refund ninety per cent of the consolidated university fee in each subject passed by a student who is taking an approved course, and who has paid his or her own fee for that subject and received no assistance towards it from public moneys.

FUNDS AVAILABLE FOR SPECIAL ASSISTANCE

THE ALFRED LUSCOMBE HOLLINGS MEMORIAL TRUST

Founded by Mrs A. L. Hollings who in 1967 gave \$2,000 in memory of her late husband, Alfred Luscombe Hollings, LL.B., a former student of the Victoria University College.

1. The purpose of awards from the Trust is to provide financial assistance to needy students enrolled in the Faculty of Law at the Victoria University of Wellington in respect of payment of tuition fees, living allowances, books and equipment.

2. Each award shall be of such amount and shall be made on such terms and conditions as the Dean of the Faculty of Law and the Bursar of the Victoria University of Wellington, acting on behalf of the Council, shall in each case determine.

3. Unless the Dean of the Faculty of Law and the Bursar shall in any case decide to the contrary, a grant of financial assistance shall take the form of a loan not exceeding \$200 repayable seven years after the making of the loan or three years after the student concerned completes the LL.B. or LL.B. (Hons.) degree whichever event shall first occur.

4. Selection for a grant of financial aid shall be based on a student's scholastic record and upon financial need.

5. Applications for financial assistance shall normally be made to the Bursar not later than 31 January in any year. Applications for emergency assistance arising from exceptional circumstances may be made to the Bursar at any time.

HISTORICAL NOTE

VICTORIA UNIVERSITY OF WELLINGTON was established as an autonomous university in 1961 by the Victoria University of Wellington Act 1961. In 1957 by an amending Act Victoria University College, as it was formerly known, was reconstituted Victoria University of Wellington but the University continued to be a constituent institution of the University of New Zealand. Victoria University College, founded in 1897, was the last of the four constituent colleges of the University of New Zealand to be established. It thus completed, apart from special provision for agricultural teaching, and within thirty years of the foundation of the first college, the general structure of the country's institutions for university work. Otago University was founded by a provincial ordinance of 1869, and was followed by the University of New Zealand set up by the general Legislature under the New Zealand University Act of 1870. The intention of the Legislature was that the two universities should coalesce, but this proved impracticable, and it was not till after many negotiations that Otago University agreed to abandon its independent status and affiliate to a purely examining university. This University, planned on the model of the University of London, was provided for by a second act, the New Zealand University Act of 1874. To it were affiliated not only the University of Otago and Canterbury College (also founded and endowed by a provincial ordinance, in 1873) but a large number of secondary schools all over the Colony which were prepared to give instruction of university standard, undergo inspection by the University, and present candidates for its examinations. But all safeguards, such as inspection, broke down, and within a few years grave abuse of the system existed. Despite this situation, however, the University Senate thought both to maintain the standard of its degrees, and to secure universal respect

for them, by excluding university teachers from examining, except for University entrance, and before the end of the first decade had arranged for all other examinations to be carried on from Great Britain.

Discontent, however, was widespread over the Colony, not least among the professors of the two institutions of university rank. Driven by this discontent the Government, at the end of 1878, set up a Royal Commission to report upon the operations of the University and its relations with the secondary schools, 'and upon the best means of bringing secondary and higher education within the reach of the youth of both sexes'. The Commission made its main report regarding the University in July 1879, supplying a draft Bill which incorporated its recommendations in the following year. It recommended that the system of affiliation as it then existed should be abolished, and that two further university colleges should be immediately set up, at Auckland and Wellington, with sites and buildings provided by the Government and endowment in land or money of £4,000 each per annum. It also recommended that the four resulting colleges should not be affiliated, but should form a federal University, the examinations of which should be conducted in the Colony, and ordinarily by the teachers of the University. 'Our desire is', added the Commissioners, 'that each college may acquire a marked individuality, such as to demand recognition in the form of the examinations, and to secure for it a special reputation, which may at some future day be the foundation of its success as a separate and independent University'.

Unfortunately this report was made just at the outset of the great depression of the eighties, so that there were added to natural inertia what seemed to be sound economic reasons for doing nothing. Nevertheless a college was established in a small way at Auckland by the Auck-

land University College Act, 1882, and by 1887 the old system of affiliation of secondary schools had disappeared. It was made clear that only university colleges could henceforth be affiliated. But nothing was done for Wellington—though the need there was demonstrably as great as that in any other part of the colony—until in 1887 Sir Robert Stout, then Premier, introduced his 'Wellington University College Bill', to found a college serving the Wellington, Hawke's Bay and Taranaki districts. This Bill handed over the Government departments of science and the Colonial Museum and their staffs to the new college, and made Sir James Hector, the Director of the Geological Survey, who was already Chancellor of the University, its Warden; £1,500 extra per annum was to be granted. It was Stout's hope that the Wellington college, being at the seat of government and of the Court of Appeal, might specialise in the teaching of law, political science, and history, as well as in some departments of science. The Bill passed the House of Representatives, but was shelved by the Legislative Council. A new ministry coming into office in 1888, the matter lapsed for seven more years, in spite of the constant urgings of the University Senate and Court of Convocation. In 1894 Stout again came forward with a 'Middle District of New Zealand University College Bill'—the Middle District now comprising not merely Wellington, Hawke's Bay and Taranaki, but Nelson, Marlborough and Westland as well. No provision could be made in a private member's bill for the expenditure of money, and though the Bill was finally passed and the Government even appointed certain members of a college council, no further step was taken. The only reserves ever set apart in the Middle District for the endowment of university education were in Taranaki.

The final step was taken by Mr Seddon, the Premier, on his return from the Diamond Jubilee celebrations. His

Victoria College Act, passed on 22 December 1897, founded the College 'in commemoration of the sixtieth year of the reign of Her Majesty Queen Victoria.' It was to be a liberal foundation, bringing university education within the reach of the working classes through direct contact with the primary schools; to ensure ultimate government control any land granted to the College was to remain vested in the Crown, and the table of College fees was subject to Crown approval. The relation of the College to the schools was fixed by the establishment of a system of 'Queen's Scholarships'. These scholarships were to be six in number, to be awarded to children of either sex under the age of 14 years on the results of an examination conducted by the College Council, which children were then to receive two years of secondary and three years of university instruction. The scholarships were payable out of the annual government grant to the College of £4,000; this grant, apart from the prospective income from a parcel of land of 4,000 acres reserved by the Act in the Nukumarū Survey District, and from fees—which were made exceptionally low—was the College's sole income. To add democratic to government control, the governing body of the College, the Council, was to consist of three members appointed by the Governor-in-Council, three elected by the members of the General Assembly resident in the University District, three elected by graduates of the College, either by examination or *ad eundem*, when their number reached thirty (until then by all graduates in the district with a British University degree), three by certificated schoolteachers, three by Education Boards, and one by the Professorial Board of the College (no professor or lecturer being eligible for election). The first Chairman of the Council was Mr J. R. Blair (1898-9); he was followed by Sir Robert Stout (1900-01).

As an initial step, the Council decided to found four chairs and the following professors were appointed: *Classics*, John Rankine Brown¹; *English Language and Literature*, Hugh Mackenzie²; *Chemistry and Physics*, Thomas Hill Easterfield³; and *Mathematics and Mathematical Physics*, Richard Cockburn Maclaurin⁴. The College was affiliated to the University in February 1899; early in that year the four professors arrived, and as soon as possible classes were organised and lectures begun. In the absence of a proper building the Council was offered by the Government the Premier's residence in Tinakori Road, then vacant; but this being thought unsuitable, arts classes were held in the Girls' High School, Pipitea Street, after school hours, and science classes in the Technical School in Victoria Street. The number of students in 1899 was 115, plus 9 exempted students.

On the basis thus laid the College as it exists at present was fairly steadily built up, though not without controversies and certain unhappy experiences. Additional chairs were founded from time to time, as follows: Modern Languages 1902, Biology 1903, Law (two chairs) 1906, Mental and Moral Philosophy 1907, Physics (separated from Chemistry) 1909, Economics (T. G. Macarthy Chair) 1920, Education 1920, History 1921, Geology 1921, Agriculture 1925-27, Political Science 1938; Social Science 1948. In 1945 Botany was separated from the Department of Biology and in 1947 a Chair of Botany was established. In

1946 a Department of Music, in charge of a Senior Lecturer, was set up; and in the same year further provision was made within the Department of Geology for the teaching of Geography. In 1948 the Chair of Mental and Moral Philosophy was replaced by a Chair of Psychology, the Professor's departmental responsibility extending to Philosophy; and in 1950 the separation of Psychology and Philosophy was completed by the creation of a Chair of Philosophy. In 1951 a Department of Accountancy, headed by a Senior Lecturer, was created. Chiefly in the 1920's and later the separate departments were strengthened by the appointment of full-time, and in certain cases part-time, lecturers. In 1953 Geography was separated from Geology and a Chair of Geography was established. In 1957 a Chair of Music was established and Mr F. J. Page, Mus.B., until then Senior Lecturer in charge of the Department, was appointed to the Chair. In the same year a Department of Asian Studies, now the Asian Studies Centre, was set up.

In the 1960's, additional Chairs were created in several Departments and chairs were established in the following new Departments: Anthropology, Business Administration, German, Information Science and Russian.

The constitution of the governing body of the College was amended in 1914, and again in 1933, when it was provided that one of the representatives of the Professorial Board was to be the first Principal, whenever appointed. Student representation on the Council was provided for in 1938, by a section of the Statutes Amendment Act, which added a member to be appointed by the Executive of the Students' Association. By this Act, also, the Council was freed from the necessity of having its by-laws approved by the Governor-General.

In 1946 a section of the Statutes Amendment Act made provision for a full-time Principal. In 1947 The Victoria

University College Amendment Act provided for an increase from one to two in the number of members of the Council appointed by the Professorial Board and for another member of the Council to be elected by the Teaching Staff.

The amending legislation of 1957 and the Act of 1961 reconstituting the University as an autonomous University are of special importance as being a public recognition of the great developments which have taken place in the College since its foundation in 1899. These developments have been particularly striking during the years following World War II.

THE BUILDINGS

For some time after the passing of the Victoria College Act there was considerable argument over the provision of a site for a College building, which was terminated, not entirely to the satisfaction of well-wishers of the new institution, by the passing of an act (the Victoria College Site &c. Act) in 1901, which empowered the Council to acquire part of a town reserve on Salamanca Road—six acres of hill, carrying with it a magnificent view and the certainty of great expense in development. The Government made a grant of £31,000 towards the cost of building and the first portion of the present structure, designed by Messrs Penty & Blake, was opened on 30 March 1906 by Lord Plunket, then Governor of the Colony. A further portion, forming a wing at the rear of the Arts (Hunter) Building, was completed in March, 1910. In 1919 the Government made a grant for the north wing, thus providing new and much-needed accommodation for the Library, as well as additional classrooms, a Women's Common Room and a Tea Room. Into the wall of this wing, just outside the entrance, was built a stone for a memorial for those students of the College who had died in the Great War.

They are also commemorated by the stained glass window and brasses in the Library, which were unveiled as part of the Silver Jubilee celebrations of 1924. The south wing was provided for by another Government grant made in 1921, to provide further accommodation for the science departments. This completed the buildings until the erection of the new Administration (Robert Stout) and Biology (Kirk) Blocks in 1937-9, also paid for by the Government through a grant of about £50,000; these last portions were designed by Messrs W. Gray Young and Francis H. Swan. The wooden gymnasium was built by public subscription in 1909, the tennis courts below being excavated by the students themselves in 1905.

In 1951 and in later years the Government provided funds for the purchase of house properties in Kelburn Parade, thus easing urgent accommodation needs.

At the end of 1953 the Government approved of a grant for a third storey to the Biology Block. This additional storey was completed in 1954. The greater part of this new accommodation was in effect a replacement of five temporary huts which had to be demolished to enable further building operations to proceed.

Early in 1955 the Government approved the College's letting a contract for the erection of a six-storey building to house certain of the Science departments and for general purposes. This building (the Easterfield Building) was completed in the course of 1958.

In 1958 a contract was let and work begun on the Student Union Building. This building, which was officially opened in 1961, is the centre of student activity and contains common rooms, a diningroom, a Little Theatre, the Students' Association offices and recreational rooms. A new gymnasium forms part of the Student Union project. The Union Building has been erected on the site of the original tennis-courts and new courts, together with

a new pavilion, have been provided on City Council land opposite.

In July 1958 the Government authorised the University to proceed with the planning of the Arts and Library (Rankine Brown) Building and the extension and alteration of the Administration Building. Work on the latter building was completed in 1961. The Rankine Brown Building was completed in 1965 and officially opened by the Prime Minister in 1966. A Lecture Theatre block providing places for 450 students became available in 1968.

The programme of building development provides next for an extension of the Kirk Building (construction anticipated to start in 1969) and the construction of a new building for the Departments of Physics, Geography and Geology.

FINANCE

The University has virtually no endowment in land, and none in money that is available for general purposes. The benefit of revenues derived from the Opaku Reserve in Taranaki, to which it has laid claim, was by the Taranaki Scholarships Act, 1905, confined to the youth of Taranaki, who may be granted 'Taranaki Scholarships' on the results of the University Entrance Scholarship examination. Nearly all university activity in the Victoria University District therefore has depended and depends on Government finance, either through statutory grants or grants for special purposes. The early Queen's Scholarships crippled the College financially in its first years: an amending act of 1903 provided for six Junior and four Senior Scholarships of this type, but in 1906 the College was relieved of their payment, and in 1907, by an amending act to the Education Act, they were abolished. £4,000 per annum was obviously not enough

for the administration of a university college, even if it had not been expanding, as this one was, and in 1905 an additional annual grant of £2,000 was instituted, for 'specialisation in Law and Science'—though, in reality, such specialisation does not seem to have been expected. A further increase of £3,000 was made in 1914 by the New Zealand University Amendment Act of that year, which readjusted the finances of all the colleges, plus a share of the 'National Endowment' amounting to upwards of £1,900. This Act consolidated all the grants apart from that from the National Endowment into a single annual grant of £9,000, which was again increased (from 1 April 1920) by the New Zealand University Amendment Act, 1919, by £2,500—of which £850 was a special grant for a chair of Education. A short act amending the College Act in 1923 gave the Council power to levy its own class fees without the previous approval of the Governor-in-Council. Still another University Amendment Act, in 1928, increased the statutory grant, apart from the special Education grant, to £11,750. From this point the grant receded, as the Government instituted economies in the Depression; in 1931 it was reduced to £9,431 18s., and the grant for the chair of Education was withdrawn; in 1932 it became £7,350 and was made no longer statutory, but subject to annual vote. In 1934 it was increased to £7,800, in 1935 to £10,145 and later £12,166, and in 1936 to £14,320. In 1938, as the result of discussion on the relation of the University to the Public Service, the Government decided to make a new annual grant of £2,000*, to found a Department of Political Science and Public Administration, thus in some sort fulfilling the wish expressed by Sir Robert Stout as long ago as 1886. In recent years consequent on representations made to the Minister by the Conference of University Colleges and the University of

*Since increased

New Zealand substantial increases have been made to the annual grant for general purposes. In 1948 a University Grants Committee was set up by the N.Z. University and a system of Block Grants to the University Colleges was introduced for general purposes, covering a five-year period. This system has now been continued for a further period.

In 1948 the Government agreed to establish a School of Social Science and made a grant for the Professor's salary. The Council appointed Mr D. C. Marsh, M.Com. (Birmingham) as the first Professor in charge of the school.

One partly endowed chair exists, the T. G. Macarthy Chair of Economics, which owes its origin to a grant of £10,000 made by the Trustees of the late T. G. Macarthy in 1915; owing to delay caused by the War, the chair was not actually founded till 1920. A chair of Agriculture was endowed by a gift of £10,000 from Sir Walter Buchanan in 1923, and filled in 1925. Auckland University College, however, had almost simultaneously founded a School of Agriculture, and both Colleges agreeing to join in founding the Massey Agricultural College at Palmerston North in 1927, the income derived from the Buchanan Trust funds was thenceforth made over to the new College, to which the chair was also transferred. The sum of £10,000 was also, in 1915, left to the College under the will of Sarah Anne Rhodes, to provide for the education of women; in 1921 the Council arranged with the Trustees to devote the income to the fostering of Home Science, through the institution of a Sarah Anne Rhodes Fellowship or Scholarship; in 1930 the regulations were altered to provide for a Travelling Fellow and/or a Lecturing Fellow. Monetary gifts and benefactions have provided a number of other scholarships of varying value, for both men and women students. Between 1933 and 1937 the

Carnegie Corporation of New York made generous allocations to the Library, in money or in kind, of \$32,500. Mr L. O. H. Tripp, who died in 1957, and who has been a friend of the University from its earliest days, bequeathed to it the sum of £5,000. The greatest benefaction ever received by the College was the £77,500 left by Mr William Weir in 1926, to provide a hostel for men students.

HOSTELS

Great need for hostels had always been felt, both as an aid to the corporate life of students and as a solution to the problem of getting adequate board and lodging in Wellington, and as a Government subsidy was by statute payable on voluntary contributions to the University or its Colleges, the Weir Bequest seemed of even greater value than it actually was. Plans were therefore drawn up on a large scale by Messrs W. Gray Young and Francis H. Swan for a building on a good site near the College. A University Amendment Act of 1928, however, limited the Government subsidy on any bequest to a maximum of £25,000, and with the coming of the depression the Government refused to pay any subsidy at all. This caused substantial modifications of the plans, even after the foundations had been laid, and the completion of the structure had to be indefinitely postponed. Weir House was opened by the Governor-General, Lord Bledisloe, on 6 March, 1933. The first Warden was Dr I. A. Henning; and the first Matron, Miss I. K. Irvine.

In 1964 the Government announced a grant of £185,000 from Colombo Plan Funds for first stage extensions to Weir House. This stage was completed by the beginning of 1968 and a number of the extra places are reserved for Colombo Plan students. Weir House accommodates 192 students.

No similar large-scale provision for women students

has yet been attainable. The generosity of the Society of Friends in 1915 provided a specially-built hostel for Training College students, where those who were students of both institutions could find accommodation; but when the Training College was closed during the depression this hostel was also closed. A valuable beginning was made in 1909 by the Women Students' Hostel Society, which, though not officially connected with nor under the control of the University, has carried on since that date, Victoria House, 282 The Terrace, with accommodation for 38 students. This Society in 1938 acquired a second house, 216 The Terrace, which is similarly maintained, accommodating 16 students. In 1955 the House at 282 The Terrace was extensively altered to accommodate a total of 50 students. In 1965 the Society resolved that the House at 216 The Terrace be sold and that all its Hostel accommodation be concentrated in the one area, namely, the vicinity of 282 The Terrace. Other properties have been acquired and the kitchen and dining-room facilities at the main Hostel are being upgraded to accommodate the increased numbers. Thus, in 1969 the Society will be providing accommodation for 79 students.

Another hostel, Helen Lowry Hall, was established in 1949 at 31 Messines Road but is now at 82-88 Hanson Street. It is administered by a Trust Board appointed by the Wellington District Council of the Student Christian Movement, and has accommodation for 75 women students.

Notwithstanding these developments, however, there still remains a great need and during the last few years a number of church and citizen groups have interested themselves in the problem. They have brought a cordial unity of approach and outlook to their deliberations and in consultation with the University have prepared plans for new halls and the extension of an existing hall. Their

immediate proposals, if realised, will provide about 400 additional places. In 1967 the groups combined in making a public appeal for funds and among the generous gifts announced at the beginning of the appeal was a splendid donation of \$50,000 by the Wellington City Council. To the amounts subscribed the Government will add a substantial subsidy at the building stage.

GENERAL DEVELOPMENT

In spite of the terms of the original Victoria College Act, 1897, and in spite of the fact, also, that its full-time students were always in a small minority, the College from the first built up a fairly vigorous and independent corporate life. Its independence and vitality were shown in the University Reform movement of 1908-14, of which professors of the College were among the leaders, supported strongly by their own students. So far as the College was concerned, this resulted in certain changes in the constitution of the Council, giving the professors direct representation thereon (the Victoria College Amendment Act, 1914), and in larger Government grants (the New Zealand University Amendment Act, 1914). Strong, though unsuccessful, resistance also was shown to the public outcry for the victimisation of a professor of German blood in 1915; in the War 620 students and old students served with the Forces, and 150 sacrificed their lives. During and after the War the movement for University reform was carried on, both by the Board of Studies set up by the University Amendment Act, 1914, and by University teachers, mainly of Victoria and Canterbury Colleges. This movement centred round the demand for the reform of the examining system by the abolition of examinations conducted from abroad, as recommended by the Royal Commission of 1879; round the distribution of 'special schools', in which Victoria College was not

directly interested to any great extent; and round the later demand for the creation of four separate universities. The upshot was the second Royal Commission on the University, which reported in 1925 in favour of the creation of a federal system as a transitional measure of indeterminate duration. Such a system was established, very imperfectly, by the New Zealand University Amendment Act, 1926, and succeeding Acts; under the 1926 Act the College became in status a constituent college of a federal, and no longer merely an affiliated college of an examining, University. Its internal administration was made more rational by the appointment in 1938 of a Principal, provided for by the consolidated Victoria University College Act, 1933, but postponed pending the College's emergence from the period of straitened finance. Professor T. A. Hunter became the first Principal. Palmerston North University College, established in 1960 as a branch of the Victoria University of Wellington, merged in 1963 with Massey College to form the Massey University College of Manawatu. This College in January, 1964, achieved full autonomy as the Massey University of Manawatu.

Student organisation, and student thought on the problems of the College and the University, are practically coeval with the College. The 'Victoria College Students' Society' was founded on 6 May, 1899, at a meeting held at the Girls' High School. A new constitution was passed in 1903 and the name of the Society altered to 'Students' Association'. It was the Association which in this year moved for the acquisition of a coat-of-arms for the College; it raised money vigorously towards the cost of the College buildings, and in other ways played a great part in the critical formative years of the corporate body. *The Spike, or Victoria University College Review*, was first published in 1902. *The Old Clay Patch*, a collection of verse by students, appeared in 1910, and a second edition

in 1920. The Debating Society was founded in 1899, and round the central association rapidly grew most of the College clubs now in existence.

In 1949 the College celebrated its Jubilee. A Committee successfully appealed for funds amounting to £35,000 for a Student Union Building, towards the cost of which the Government provided a liberal subsidy.

The following volumes were published:

Victoria University College by J. C. Beaglehole.

The Old Clay Patch (Third Edition). Edited by a Committee.

The Spike: Golden Jubilee Number. Edited by R. W. Burchfield.

Some years ago it was suggested that the College could not be developed on the present site; but after full investigation the Council decided that it would be in the best interests of higher education for the College to remain in Wellington if the site could be extended. In 1949 a satisfactory agreement was reached between the City Council and the Government with regard to exchange of Crown Land for part of the Town Belt and legislation was passed, whereby under the Reserves & Other Lands Disposal Act, 1949, an area of 13 acres of the Wellington Town Belt immediately adjoining the Victoria University College site was transferred to the College.

One of the great landmarks in the University's history was the Government approval, in 1964, of a development plan which will increase the area of land available to the University from a present total of a little more than 20 acres to a total of approximately 130 acres. Portion of the area consists of broken country and it is estimated that by earthmoving operations a usable site of approximately 100 acres can be provided.

In 1954 a grant of £3,500 was made by the Government to assist in the development of Te Aro Park as a

University playing field, since named Boyd-Wilson Field.

ADULT EDUCATION AND UNIVERSITY EXTENSION

Adult Education has been provided for, to the best of the College's ability, since 1915, when the Workers' Educational Association, then at the outset of its work in New Zealand, established three tutorial classes in Wellington. The movement grew on lines rather different from the

English model, being limited by inadequate financial resources (its main recourse, in spite of support from public bodies, being to Government grants) and the consequential small extent to which it could employ tutors for the wide country districts, both in the North and in the South Island (Nelson and Marlborough). It has therefore had to work in the country largely by means of 'box courses', and 'discussions courses' carried on by post, a tutor-organiser covering what ground he could. In 1932 the Government grant was withdrawn altogether, and though in 1934 the movement was saved by a tapering grant from the Carnegie Corporation, the Association could no longer maintain a full-time tutor-organiser. With the return of the Government grant in 1936 it was possible to extend the work once more, and first one tutor-organiser for country work was appointed in 1936, and then a second in 1938. Two additional grants were made by the Government in 1937, one specifically for tutorial work in Public Works Camps. Meanwhile other agencies for adult education had come into being, and it was felt that some co-ordination of effort and expenditure was necessary. At the request of the Minister of Education, the Hon. P. Fraser, a committee was set up by the University Senate to go into the matter, and as a result of its report there was formed in 1938 a Council of Adult Education, through the agency of which it was intended to put the work of the W.E.A., among other organisations, on a new and much more satisfactory basis all over the country.

In 1945 the Council of Adult Education set up a Consultative Committee, which published its report on the problems of Adult Education in 1947. As one result the Adult Education Act, 1947, was passed, setting up a National Council of Adult Education with much wider powers, and four Regional Councils connected with the constituent colleges of the University. A new Adult Educa-

tion Act passed in 1963 reconstitutes the National Council. The provisions of the 1947 Act with respect to Regional Councils are repealed and not replaced; the University has established its own Department of Adult Education, the Director being advised by a Committee widely representative of interested organisations. In recent years the class and seminar programmes of the department have become more closely related to University disciplines. For this reason the name of the department was changed in 1966 to the Department of University Extension.

HUNTER BUILDING

The Arts building, the oldest part of the University fabric, is named after Sir Thomas Hunter, first professor of philosophy and psychology. Thomas Alexander Hunter was born in London in 1876 and spent his boyhood in Dunedin; at the University of Otago he took a senior scholarship and a first in mental and moral philosophy. After ten years' school-teaching he was appointed, in 1904, to Victoria University College as lecturer in mental science and political economy; became professor of philosophy and economics in 1907, and in 1909 of philosophy and psychology, which chair he retained until 1947. From 1938 he was the first Principal, and from 1948 to 1951 the first full-time Principal of the College. In 1939 he was created K.B.E.; in 1946 was made by his colleagues the recipient of a *festschrift*, the first person so honoured in New Zealand. It is impossible in a short space to detail Hunter's services to the College, or to overestimate their value, or the value of his influence for almost fifty years in its life. Free, independent, and courageous of thought, of great acuteness and fertility of mind, he was for very many people, both students and public, its very essence. In general university and educational life his work was also of great importance: he was a leader of the university

reform movement from 1910, a member of the University Senate from 1912 to 1950, Vice-Chancellor of the University of New Zealand 1929-47. He was a leader in adult education, a leader in the organisation of agricultural education and of educational research. No man, in fact, ever did more for education in New Zealand. Hunter died, after a short retirement, in 1953.

ROBERT STOUT BUILDING

The Administration building is named after Sir Robert Stout (1844-1930), one of the great figures in New Zealand political and legal history, and the virtual founder of this University. Stout was a Shetland Islander who came to seek his fortune in Otago in 1864, went on from school-teaching to law, in which he had a shining career as an advocate, and had a long though broken career in politics as a liberal leader. He was Premier 1884-7; K.C.M.G. 1886; Chief Justice 1899-1926. His two life-long advocacies were temperance and education. He had much to do with University administration in both Otago and Wellington. He taught law in Otago, was a member of the Senate of the University of New Zealand from 1884, and Chancellor 1903-23. In 1887 he first brought a bill into parliament for establishing a Wellington university college. This was defeated. His enthusiasm did not cease; he introduced and got passed a second bill in 1894. But this, as a private member's bill, could not provide the necessary finance, and in spite of desperate prodding, no government move was made till 1897, when the Victoria College Act was passed. Stout was a member of the Council 1898-1915, 1918-23, and its chairman 1900-01 and 1905. As Chancellor of the University he led the opposition to the early reform movement, but had always the highest standard of learning, both liberal and professional, close to his expansive and benevolent heart.

KIRK BUILDING

The Biology building is named after Harry Borrer Kirk (died 1948), first professor of biology, 1903-44. Kirk was the son of a distinguished botanist; his early adult life was spent in the backblocks, as an inspector of Maori schools, close to New Zealand in its natural and primitive state; and in spite of his brilliance as a student and his wide experience, there was some alarm at his appointment. Of this his life as a teacher was a triumphant vindication. Taking all biology for his province, and devoting himself quite selflessly to his students, he could never build up a great reputation as an original scientist; his contributions to his subject were none the less considerable, and those of his students form a lengthy and distinguished list. What made Kirk a great force in teaching, however, and a great force in the College, was not his erudition, or his long hours of work, so much as his native and unstrained character. To a great knowledge of mankind he added an unconventionality and sweetness of mind, a humour, generosity and delicacy that brought him the love of many generations of students, from many departments besides his own, as of his colleagues of whatever interest or age. His wisdom was more than gold. He is commemorated by a bronze portrait plaque and inscription, unveiled before his retirement, in the building named after him.

EASTERFIELD BUILDING

This building is named after Thomas Hill Easterfield (1866-1949), the foundation professor of chemistry and physics. Easterfield was a Yorkshireman, educated at Leeds, Cambridge, Zürich and Würzburg; before coming to New Zealand in 1899 he had lectured for the university extension movement and taught at the Perse School. Buoyant in mind, but swift and persistent, a master of lecturing-technique, he was the first of our teachers to express his

distrust of lecturing, and to proclaim the necessity of research, in which he had himself been trained; and his chemical laboratory in Victoria Street was thus the first scene of practical experiment in the College's history. With Hunter and Kirk, he was vehement for university reform: as with them, there was no room in his mind for cant. In the first twenty years of the College he taught some extremely able students, and he was a born builder of a department. By the end of that time, his interests had turned increasingly to the organisation of research, he felt he had given the institution all he had to give, and he seized the opportunity to become first director of the Cawthron Institute, where his term of office, from 1920 to 1933, was of great importance in scientific research in New Zealand. The College, not ungrateful for his work, had made him its first emeritus professor, and in 1938 he was created K.B.E.

RANKINE BROWN BUILDING

The Arts and Library Building is named after John Rankine Brown, foundation professor of classics—who was also the College's first teacher of French. John Rankine Brown (1861-1947) was a Scotsman, the son of the tailor to St Andrews University, and in the traditional Scots democratic way he took heartily to education, leaving St Andrews with a distinguished master's degree for further distinction at Oxford. From 1886 he taught at Glasgow, becoming in 1896 senior university lecturer in Latin, a well-known and first-rate teacher. At Victoria he taught for forty-six years, shy, cautious, kind, broadening his own concept of a classical education, and bringing the ancient Greeks alive for students who never guessed they were anything more than ancient. He had a part in College administration all through his life; was a member of the University Senate for twenty-seven years, and Vice-Chan-

cellor 1923-27. He retired from his chair in 1945, was made emeritus professor and K.B.E. in 1946, and died in the following year.

BOYD-WILSON FIELD

The Boyd-Wilson Field is named after Edwin John Boyd-Wilson, professor of modern languages from 1920 to 1954. A man of super-abounding energy and enthusiasms, a distinguished footballer at Canterbury University College, whence he went to Cambridge, Boyd-Wilson was not merely a good teacher and a good colleague, but a person devoted to a wide variety of outdoor pursuits. Like Nimrod a mighty hunter, he was also the founder of the Tramping Club, and for very many years one of the chief props and stays of the Football Club, as well as a member of the management committee of the Wellington Rugby Football Union from 1927 to 1945. When the university athletic field was in contemplation he gave to it early and most generous support. His friendships were multifarious, especially with students, his tolerance great, his hospitality unceasing, his kindheartedness like his energy overflowing. On his retirement he joined the band of emeritus professors, having already been made by the Government of France *officier de l'Académie Française*.

40. APPLICATION OF INCOME AND CAPITAL OF UNIVERSITY—(1) Subject to the provisions of this Act and any other Act and to the terms of any trust or endowment, the income and capital of the University shall be applied in doing whatever the Council thinks expedient in order that the University may best accomplish the purposes for which it is established.

(2) Without limiting the generality of the foregoing provisions of this section it is hereby declared that the Council may from time to time, out of income which may be applied in accordance with those provisions, create, maintain, and add to a fund or funds for any one or more of the purposes for which that income may be applied.

7. No names shall be entered in any roll while such roll is closed.

8. Every candidate shall be nominated in writing by one or more electors entitled to vote for his election and shall contain the written consent of the candidate to his nomination.
